Forecast for Friday 30 Dec 2022

Weather: Snow down to around 600m by dawn. Blizzards are expected. The rain and snow becoming lighter and more showery from midday, perhaps even a few sunny intervals in places in the afternoon. The Ochils may catch a few heavier rain showers.

Chance of cloud-free hill tops above 800m: Less than 10% in morning rising 60% in afternoon.

Low Cloud and visibility: Extensive cloud 400-700m in morning with some lower patches then lifting 750-900m and becoming more broken in afternoon though clinging to some of the mountains. Very poor visibility in the cloud and heavy snow, poor in rain but becoming mainly good away from cloud in the afternoon.
